PROFESSIONAL SUMMARY

Software Developer with hands-on experience building **real-world web and mobile applications** using React.js, Next.js, Node.js, Express.js, MongoDB, and React Native. Skilled in **responsive UI, REST API integration, authentication, analytics, AI integration, third-party APIs, debugging, testing, and deployment**. Experienced in developing client websites, business applications, and reusable features while working on **R&D, technical documentation, and practical project requirements**.

TECHNICAL SKILLS

Frontend:	HTML5, CSS3, JavaScript, React.js, Next.js, SCSS, Responsive UI
Backend:	Node.js, Express.js, REST APIs, JWT Authentication
Database:	MongoDB, MySQL
Mobile:	React Native, Firebase Cloud Messaging, AsyncStorage, React Navigation
APIs & Integrations:	Facebook/Instagram Meta API, Webhooks, Umami, OpenPanel, Wappalyzer, Nodemailer, Razorpay, Shiprocket
Tools:	Git, Postman, Vercel, AWS, MongoDB Atlas, Obsidian
Other:	AI Integration, Email Automation, R&D, Technical Documentation

PROFESSIONAL EXPERIENCE

Software Developer — Kriha IT Solutions Chennai, Tamil Nadu | Jul 2026 – Sep 2026

- Developed and maintained **real-world web applications and client websites** for hospitals, healthcare, construction, e-commerce, and other business domains using **React.js, Next.js, REST APIs, and SCSS**, with responsive and reusable UI components.
- Built **multi-tenant commerce, mobile notification, and website/mobile analytics features**, integrated APIs, developed responsive UI, fixed bugs, handled content updates, and supported **development and deployment workflows** across client projects.
- Performed **Meta Graph API/Webhook R&D** and technical R&D on Wappalyzer, OpenPanel, responsive scaling, Markdown rendering, map optimization, and Excel export formatting, along with **testing, debugging, and technical documentation**.

KEY PROJECTS

Dude Quiz AI — AI-Based Quiz Platform dude-quiz.vercel.app React.js · Node.js · Ollama AI · KaTeX

- Built an **AI-powered quiz platform** to help Tamil-medium students in Classes 10–12 practice subjects and clarify doubts using AI.
- Integrated **Ollama AI** for doubt clarification, **KaTeX** for mathematical/scientific formulas, and developed a responsive quiz experience actively used by **25+ students**.

Billing Software — Role-Based Billing System billing-kabi09.vercel.app MERN · JWT · Nodemailer · Barcode · Thermal Printer

- Developed a **role-based billing system** to simplify product billing, barcode-based sales, and thermal invoice printing for daily business operations.
- Implemented **JWT authentication**, automated daily/monthly/annual sales reports, database backup workflows, barcode scanning, and thermal-printer integration.

E-Commerce Web Application — MERN Shopping Platform dudez.in MERN · Razorpay · Shiprocket

- Developed a **MERN-based e-commerce platform** with product browsing, cart, checkout, payment, order management, and a dedicated admin panel.
- Integrated **Razorpay payments**, COD, inventory management, PDF invoice generation, **Shiprocket shipment tracking**, and admin-side product/order management.

Analytics Platform — Website & Mobile Analytics React.js · Next.js · React Native · Umami · OpenPanel

- Developed a **centralized analytics platform** to help businesses understand website and mobile user activity through Traffic, Behavior, Audience, and Growth insights.
- Implemented **visitor, session, page/screen, event, traffic source, location**, and user-activity tracking across client websites, mobile apps, and admin panel.

Multi-Tenant Commerce Platform — Domain-Based Commerce Next.js · React.js · JavaScript · SCSS · REST APIs

- Developed a **multi-tenant commerce platform** that allows multiple client websites to run from a single application using domain-based configuration.
- Implemented **dynamic client configuration**, reusable product and login components, responsive UI, and backend API integration for client-specific features.

Mobile Push Notification Platform — Mobile Push Notifications React Native · Firebase FCM · AsyncStorage

- Developed a **centralized notification platform** to deliver real-time push notifications to mobile users across different application states.
- Implemented **FCM token registration**, authentication, foreground/background notifications, notification history, read/unread status, and click URL redirection.

EDUCATION

B.E. – Computer Science & Engineering — EGS Pillay Engineering College, Nagapattinam **2025 | CGPA: 7.4**
